

Campus Work is a part-time job information site operated by Hiroshima University Co-op. Since the job openings are limited to Hiroshima University students, competition is lower than for regular part-time jobs, and there are many job openings that are suitable for students! You can easily search for part-time job information anytime, anywhere. Please take advantage of this site.

Point 1 Strong in local companies around the University

You can make connections with local companies that will help you find a job! Naturally, most of the jobs that come to the Hiroshima University Co-op are with companies in Hiroshima Prefecture. In addition, since you can work for a local company, you can gain great experience if you are thinking about finding a job in Hiroshima Prefecture.

Point 2 Co-op's Carefully Selected Safe and Reliable Jobs

The University Co-op will post carefully selected job postings so that you can apply with peace of mind!

“I was hired, but the benefits were different from the job description.” “I was forced to do dangerous work that was not listed in the job description.”

We often hear these kinds of complaints about jobs that claim to offer good conditions and benefits. This site posts job information that has been screened by the University Co-op, so we eliminate such black companies as much as possible.

Point 3 The site is easy to use for international students.

There is a section called “Application Requirements (International Students Allowed)”. This site makes it easy for international students to find part-time job information. However, the site itself is in Japanese, so please use a translation machine.
